PROCEDURE FOR SUBMITTING CUSTOMER SERVICE REQUESTS AND SAMPLES

This form must be used for all customer service requests, whether for oil sampling, parts analysis, complaints or claims.

All requests must comply with the following procedure:

A. Requests Involving An AMSOIL Lubricant

1. A product sample must be obtained for all customer service requests. A four (4) ounce sample is needed for engine oils, gear lubricants, compressor oils, hydraulic fluids or farm tractor fluids. Take samples while oil is at operating temperatures. **Do not submit two-cycle lubricant mixed with fuel!**
2. A customer service form must be **completely** filled out and signed by the person initiating the request. This form is designed to obtain information needed in order to properly answer your request.
